

CHAPTER 44:05:05

AIR AMBULANCES

Section

- 44:05:05:01 Criteria for aircraft.
- 44:05:05:02 Required certificate of airworthiness.
- 44:05:05:03 Securing of equipment.
- 44:05:05:04 Stretcher security.
- 44:05:05:05 Aircraft doors.
- 44:05:05:06 Interior height requirements.
- 44:05:05:07 Required lighting.
- 44:05:05:08 Required portable lights.
- 44:05:05:09 Repealed.
- 44:05:05:10 Medical director required.
- 44:05:05:11 Attendant training required.
- 44:05:05:12 Required medical equipment.
- 44:05:05:13 Equipment storage.
- 44:05:05:14 Trip reports required.
- 44:05:05:15 Electrical power minimums.
- 44:05:05:16 Inverter requirements.
- 44:05:05:17 Length of licensing period.
- 44:05:05:18 Permit display.
- 44:05:05:19 Required inspection.
- 44:05:05:20 Ground ambulance component for air ambulance service.

44:05:05:20.01. Ground ambulance component for healthcare facility-operated air ambulance service -- Interfacility transfer.

44:05:05:21 Vehicle requirements for ground ambulance component.

44:05:05:22 Personnel requirements for ground ambulance component.

44:05:05:20. Ground ambulance component for air ambulance service.~~A~~
~~licensed~~ An air ambulance service may operate a ground ambulance component as part of its service if the ground ambulance component is used solely to transport the ~~licensee's~~ air ambulance service's patients. The ground ambulance component may transport patients ~~in either of the following ways as follows:~~

(1) From an acute care hospital facility to an airport located in the area where the licensee maintains its ordinary and usual place of business; ~~or~~

(2) From an airport located in the area where the licensee maintains its ordinary and usual place of business, to an acute care hospital facility; or

(3) From one health care facility to another health care facility, unless the ambulance service that has a right to provide the service pursuant to local government agreement or ordinance has declined to provide service.

Law Implemented: ~~SDCL 34-11-5~~ 34-11-1 to 34-11-3, inclusive.

44:05:05:20.01. Ground ambulance component for healthcare facility-operated

air ambulance service -- Interfacility transfer. A health care facility, licensed in accordance with SDCL chapter 34-12 that operates an air ambulance service, may transfer a patient from one health care facility to another health care facility using the air ambulance service's ground component if:

- (1) Weather or mechanical issues prevent a medical air transport; or
- (2) The transfer is for a patient who requires a higher level of care than what is available at the facility requesting the transfer.

The ambulance service that has a right to provide the service pursuant to local government agreement or ordinance has the right of first refusal.
