

44:19:01:04. Required tests. In addition to the metabolic disorder tests required in SDCL 34-24-18, a designated laboratory shall screen any infant born in this state for the following newborn screening disorders:

- (1) Hemoglobinopathies;
- (2) Biotinidase deficiency;
- (3) Classical congenital adrenal hyperplasia;
- (4) Fatty acid oxidation disorders;
- (5) Amino acid disorders;
- (6) Organic acid disorders;
- (7) Cystic fibrosis;
- (8) Severe combined immunodeficiency disorder;
- (9) Spinal muscular atrophy; and
- (10) Glycogen storage disease type II-(or Pompe disease).

Each physician, nurse practitioner, physician assistant, certified nurse midwife, or certified professional midwife providing childbirth services shall perform a newborn hearing screening on any infant the provider or midwife delivers in this state.
